Experience

Web Developer Intern

At CodSoft

15/07/2023 - 15/08/2023

- Collaborated with the development team to create and maintain web applications using HTML, CSS, JavaScript, and React.js.
- Successfully integrated external data sources via APIs to enhance website functionality and real-time data updates.
- Assisted in debugging and troubleshooting issues, showcasing problem-solving skills.
- Created the Responsible and user Friendly Web Site as tasks to enhance my Designing Skill.

Jr. Frontend Developer

At CreatPix infotech LLP

01/01/2024 - 30/06/2024

- Developed and Customized Shopify Themes: Utilized HTML, CSS, and Liquid to create and customize Shopify themes, ensuring a visually appealing and brand-consistent e-commerce experience.
- Responsive Design Implementation: Ensured optimal viewing across various devices by implementing responsive design techniques, significantly enhancing user engagement and satisfaction.
- Collaborative Development: Worked closely with designers and backend developers to deliver seamless, dynamic, and user-friendly e-commerce websites, fostering a collaborative team environment.
- Participated in Agile processes, using Git for version control.
- Optimized website performance and implemented SEO best practices.

Projects

Youtube-Clone-WebApp

10/08/2023 - 29/08/2023

- Developed a YouTube clone using React.js for the front-end.
- Utilized external APIs (e.g., YouTube Data API) to fetch video data, user profiles, and video thumbnails, providing real-time and dynamic content updates.
- Employed responsive design principles and CSS media queries to optimize the platform for a wide range of devices, improving user accessibility.
- Demonstrated strong problem-solving skills by resolving technical challenges during development.
