Experience

Web Developer Intern

At CodSoft

15/07/2023 - 15/08/2023

- Collaborated with the development team to create and maintain web applications using HTML, CSS, JavaScript, and React.js.
- Successfully integrated external data sources via APIs to enhance website functionality and real-time data updates.
- Assisted in debugging and troubleshooting issues, showcasing problem-solving skills.
- Created the Responsible and user Friendly Web Site as tasks to enhance my Designing Skill.

Projects

Youtube-Clone-WebApp

10/08/2023 - 29/08/2023

- Developed a YouTube clone using React.js for the front-end.
- Utilized external APIs (e.g., YouTube Data API) to fetch video data, user profiles, and video thumbnails, providing real-time and dynamic content updates.
- Employed responsive design principles and CSS media queries to optimize the platform for a wide range of devices, improving user accessibility.
- Demonstrated strong problem-solving skills by resolving technical challenges during development.

Personal Portfolio

15/07/2023 - 19/07/2023

- Developed a responsive personal portfolio website using React.js, ensuring optimal user experience across various devices and screen sizes.
- Utilized HTML, CSS, and JavaScript to create an aesthetically pleasing and responsive user interface.
- Implemented interactive features such as project galleries, contact forms, and a resume download section.
- Continuously updated the portfolio with new projects and skills to reflect ongoing growth and development.
